

A decorative graphic on the left side of the slide. It features a semi-circular area with a yellow and orange radial gradient. Overlaid on this are various floral and leaf motifs in white and orange. There are several five-petaled flowers, some solid white and some orange, along with various leaf shapes, including a large maple leaf. Swirling white lines and smaller orange leaves are also present, creating a lush, garden-like feel.

Creating Fabulous Graphic Slides Using PowerPoint 2007

A tutorial from
www.BrainyBetty.Com

Introduction

- You can create fabulous graphic slides with the tools in PowerPoint 2007.
- First we'll show you 3 examples and then, we'll show you step by step how to achieve the same results.

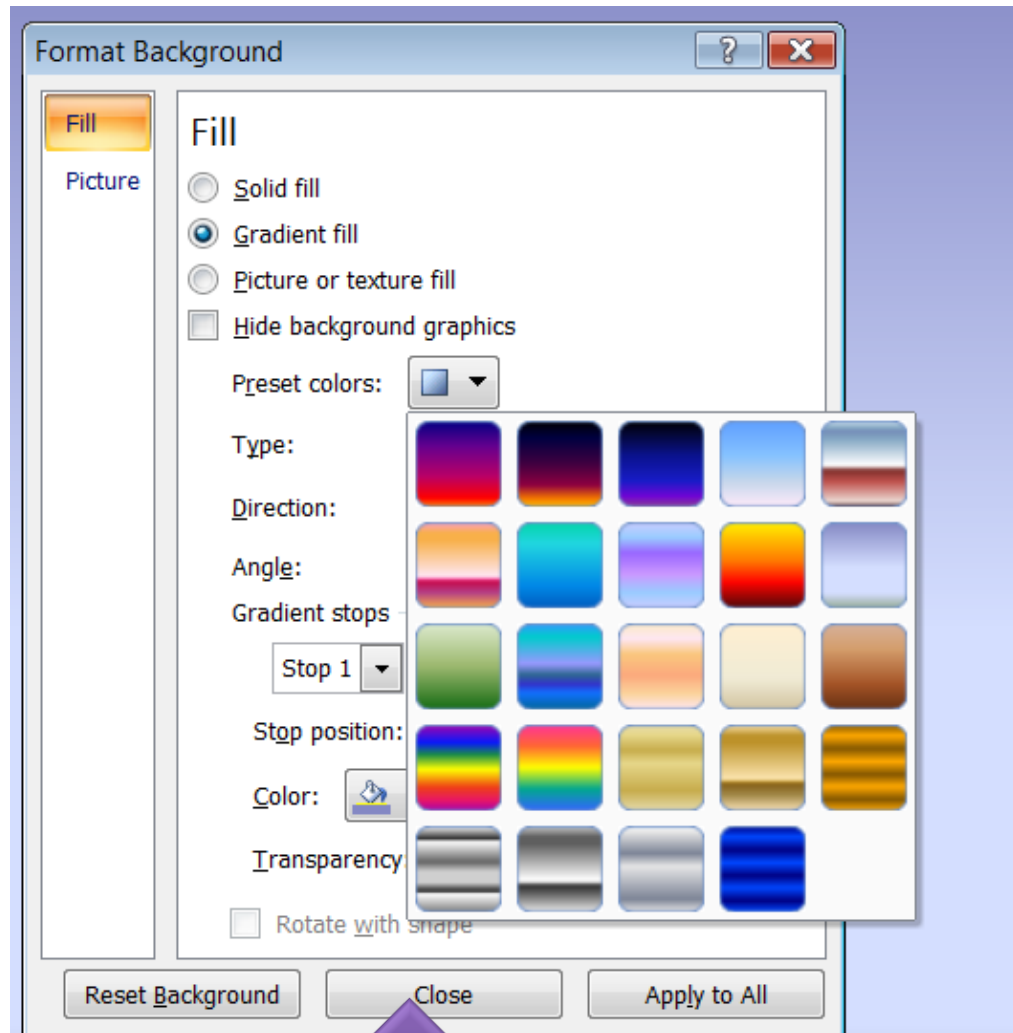

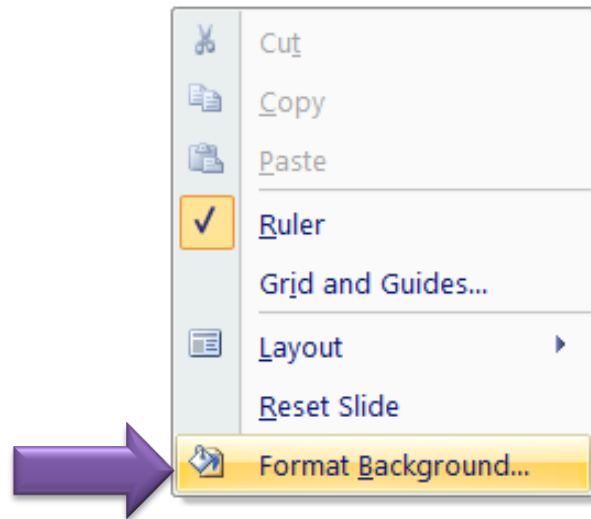

Example 1: Designs

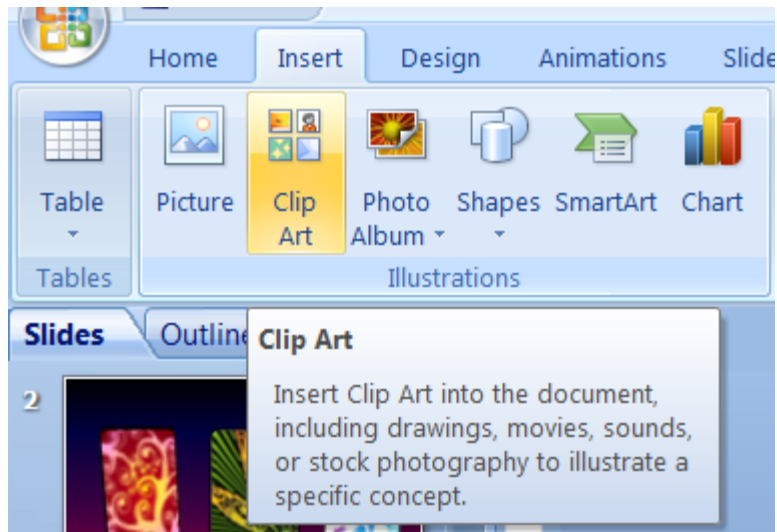

Example 2: Personal Pictures

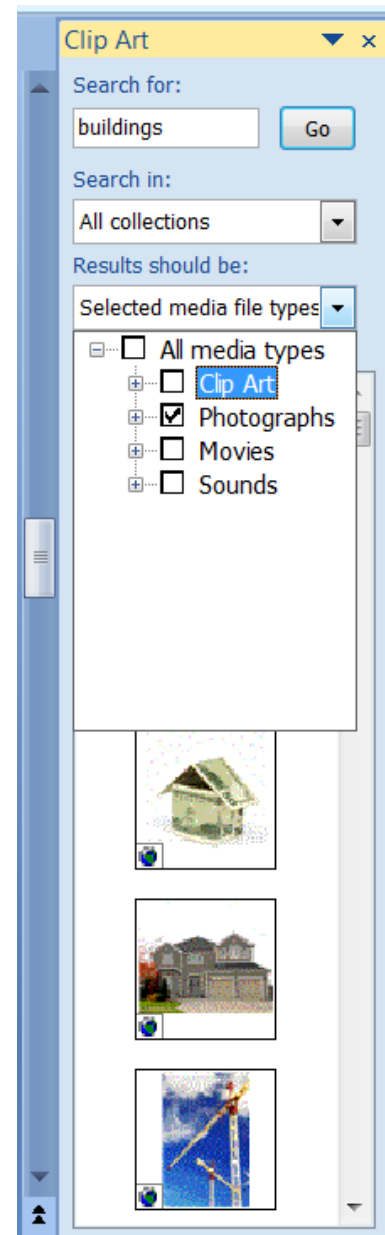

Example 3: Products or Services

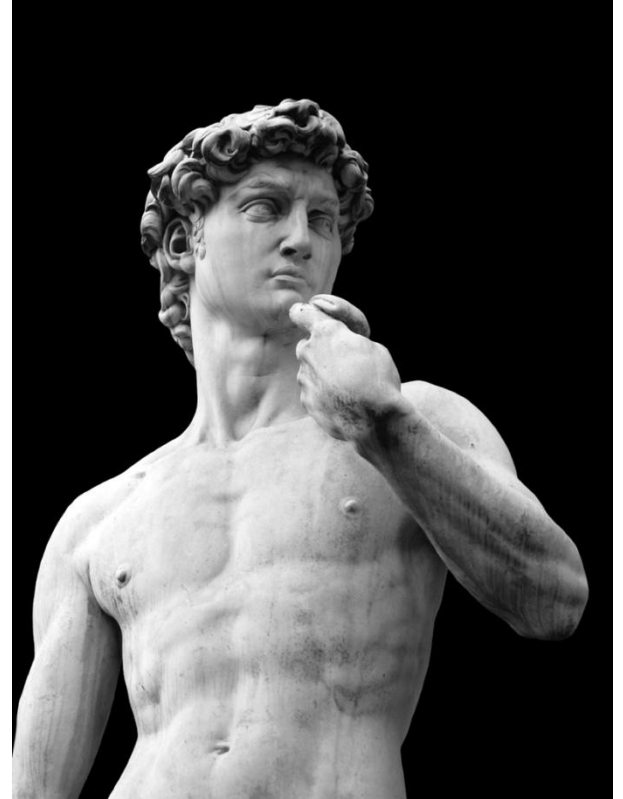

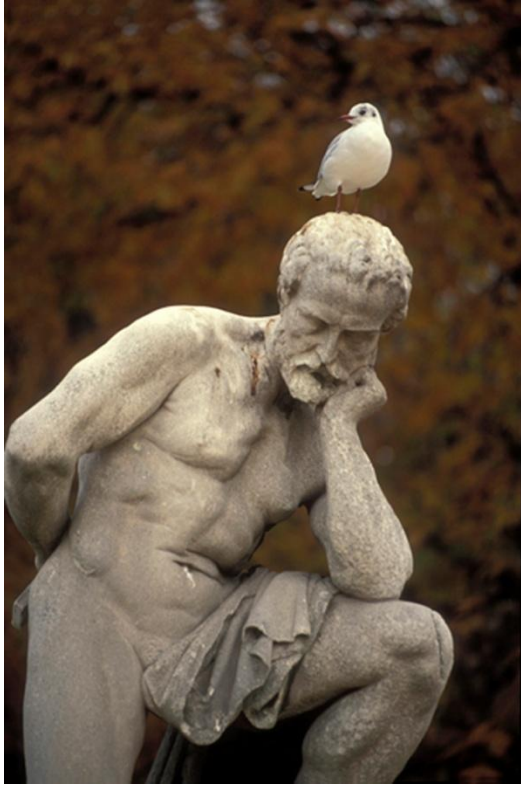

1. Right-click on a blank slide.
2. Choose Format Background
3. Choose Gradient Fill.
4. Pick a Preset Color.
5. Click the Close button.

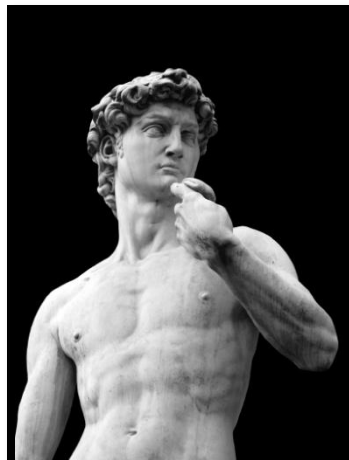

1. From Insert menu, choose Clip Art.
2. Put in your Search term and choose media type.
3. Vertically oriented pictures work best.
4. Click on the picture to add it to your slide.

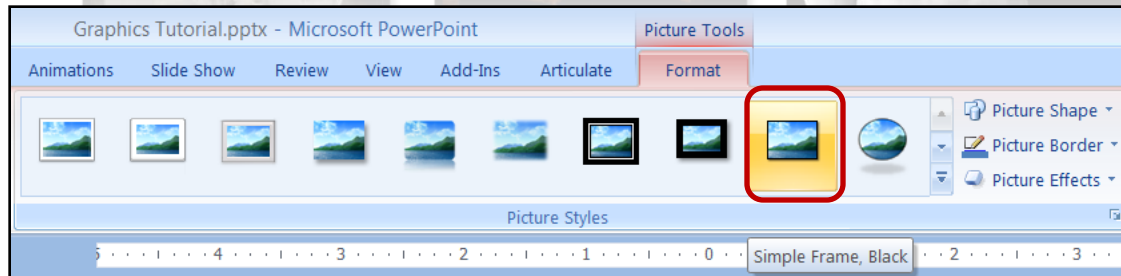

Place the pictures on the slide like this – make sure they are fairly even as far as size.

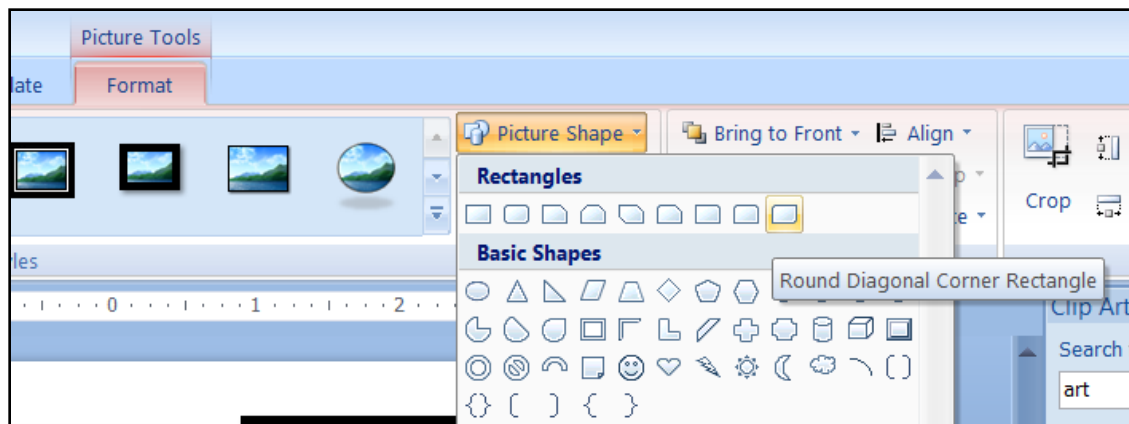

1. Add the frame style from the Format Menu.
2. Change the shape to something you choose from the Picture Shape menu.
3. Create the Reflection from the Picture Effects menu.

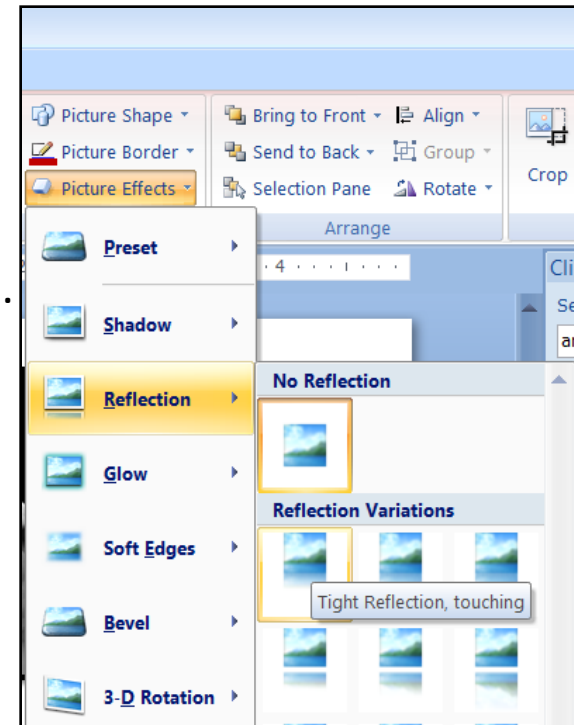

1.

2.

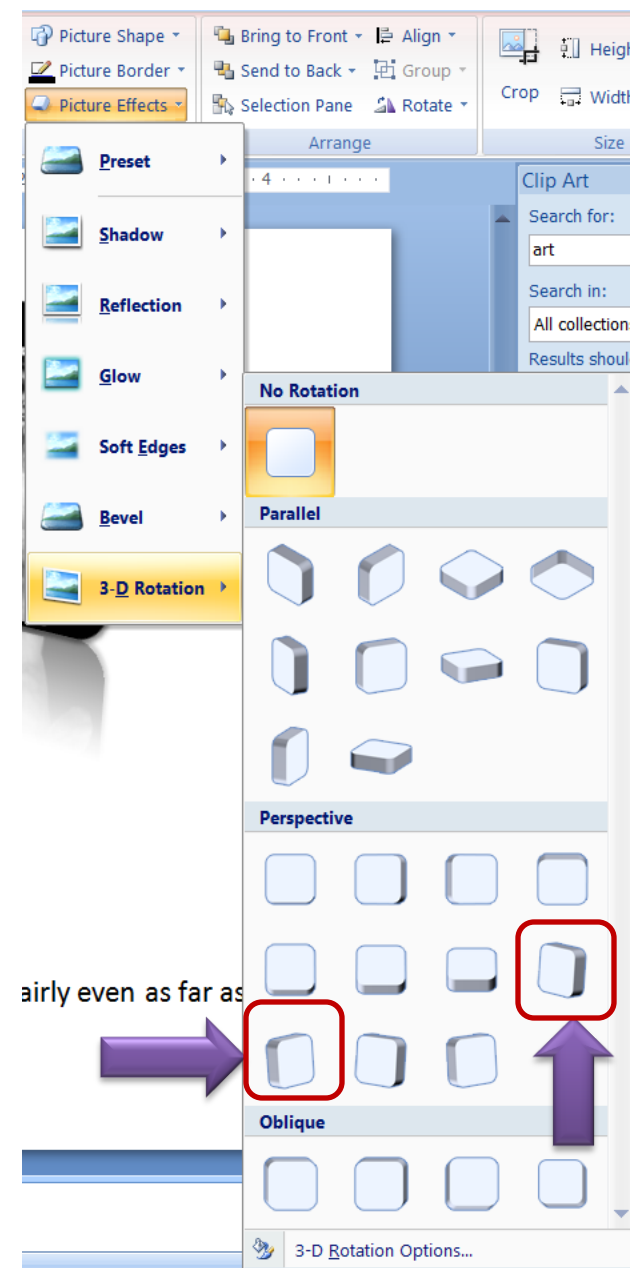

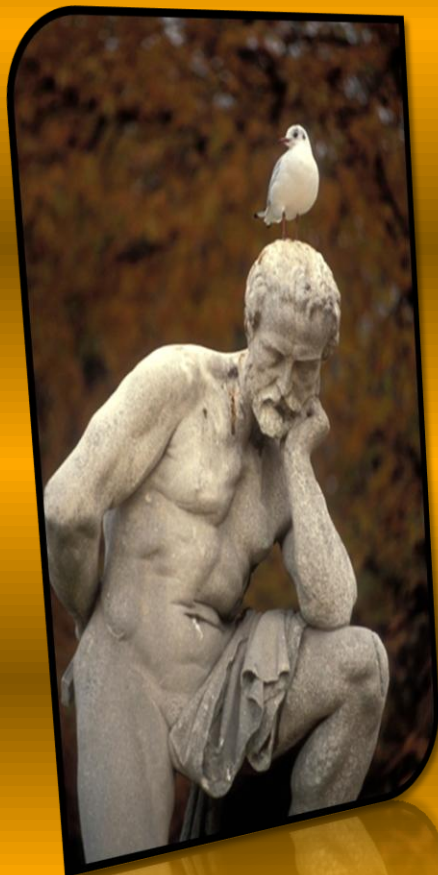

3.

1. From the Picture Effects menu, choose 3-D Rotation.
2. From the Perspective category, choose the Left outer corner and right outer corner types for each left side and right side photo respectively.

Viola! You have a perfect graphic slide!
