Creating Fabulous Graphic Slides Using PowerPoint 2007: 4 Colors!

A tutorial from

Introduction

- You can create fabulous graphic slides with the tools in PowerPoint 2007.

- First we'll show you 3 examples and then, we'll show you step by step how to achieve the same results.
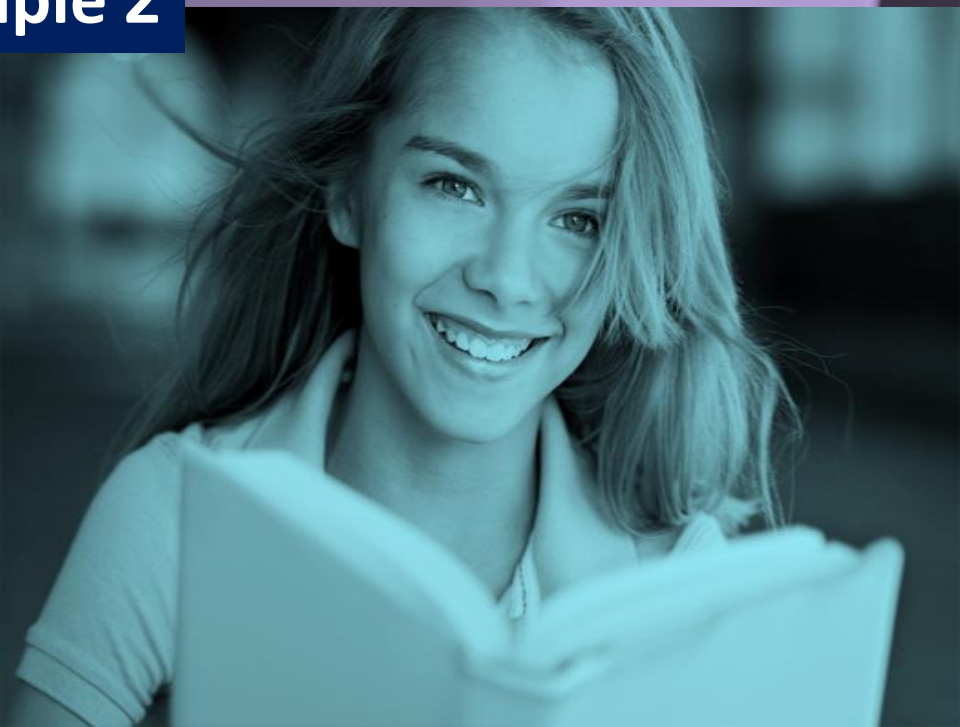

4/17/2009
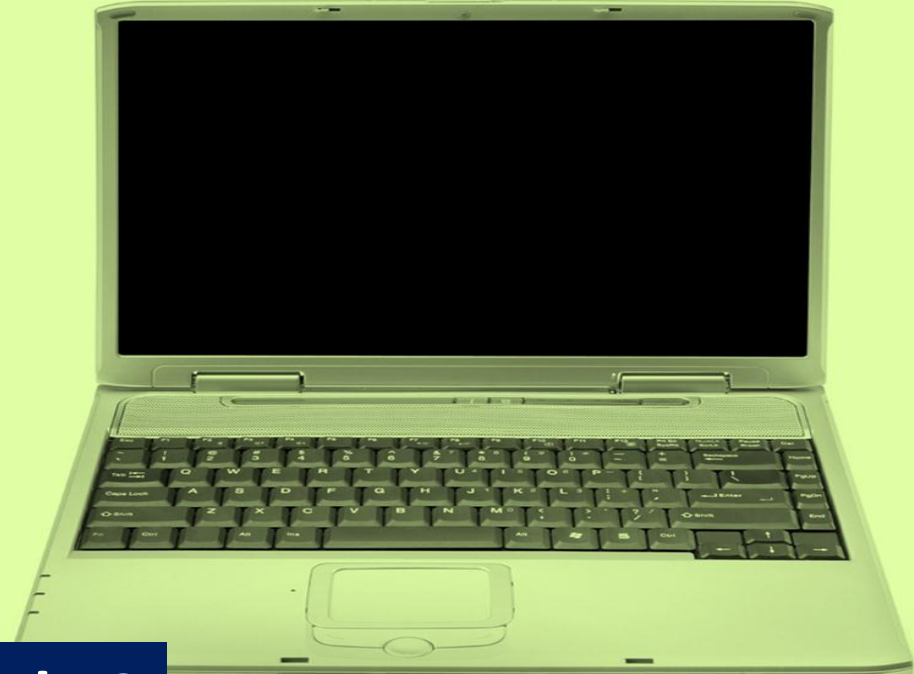

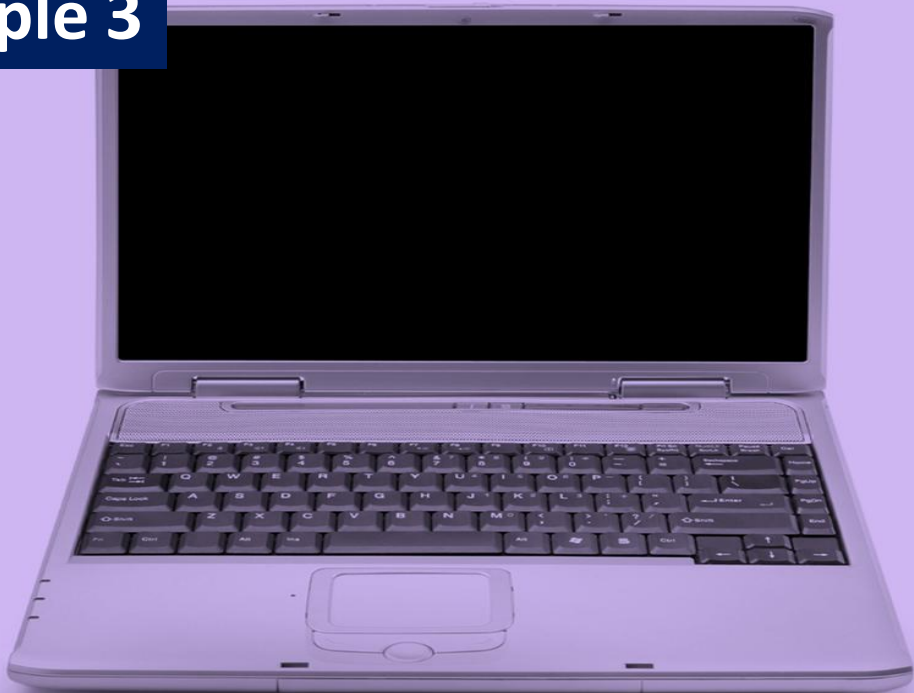

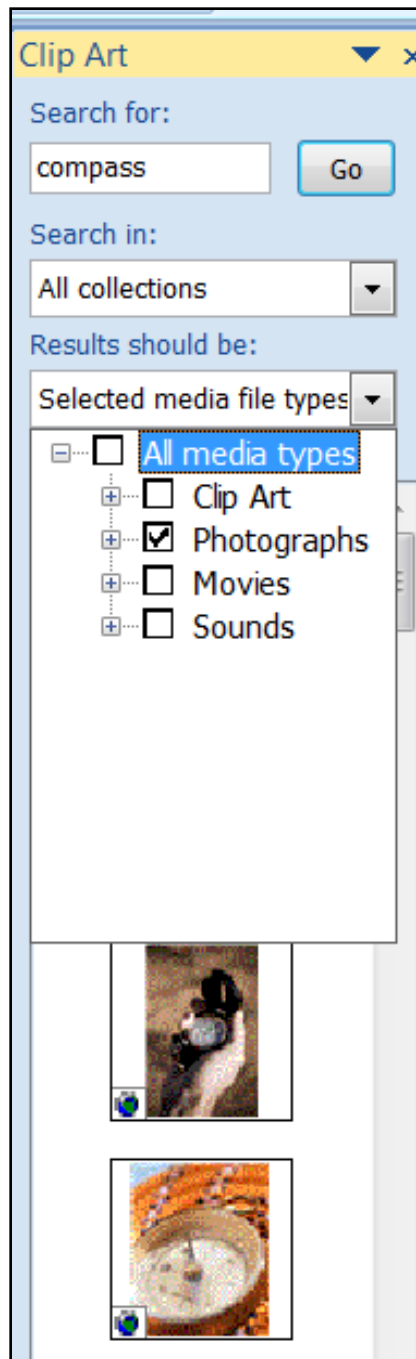

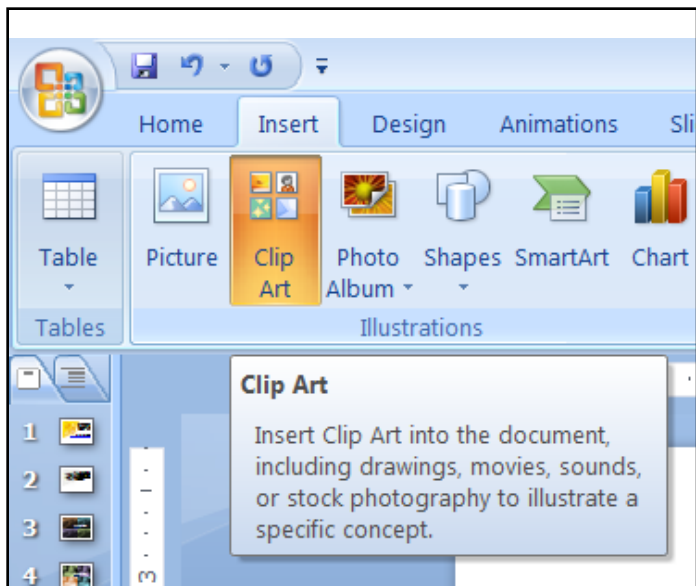

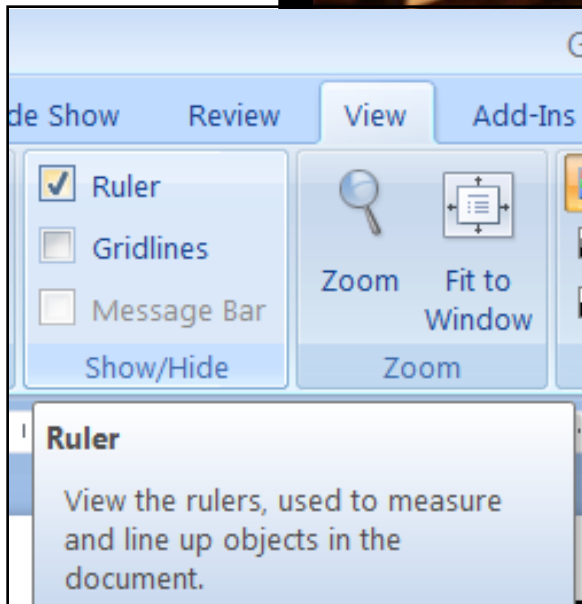

Example 1

Example 2

Example 3

1. On a blank slide, choose from the Insert menu, Clip Art or Picture.
2. Type in a search term and choose Photographs from the Media File Type choices.
3. Click on the picture you would like to use.

Make 3 additional copies of the picture by right-clicking on the first picture, choosing Copy and then Paste 3 more times. Next align them using the top and side rulers so they are placed evenly on the slide like this…

de Show Review **View** Add-Ins

✔ Ruler
☐ Gridlines
☐ Message Bar

Zoom Fit to Window

Show/Hide Zoom

Ruler

View the rulers, used to measure and line up objects in the document.

Note: If you don't see the rulers, choose the View menu item, and then check Ruler.

1. Highlighting the first picture with your mouse, go to the Format menu and choose the Recolor item.
2. Choose either a dark or a light variation.
3. Repeat for the other 3 pictures.

You're all done!
